

# Banking Strategy, Credit Appraisal, And Lending Decisions: A Risk-return Framework

It includes three new chapters in which the author discusses topical issues such as the impact of capital regulation on the risk attitude and profitability of banks, strategies to protect banks from a liquidity crisis, and the need of a portfolio approach in developing models for credit exposure and loan management. Banking Strategy, Credit Appraisal, and Lending Decisions: A Risk-Return Framework. In such a situation, these institutions need to work out a strategic framework which must evolve around the profit objective so as to build up quality loan-assets portfolios and to ensure adequate capital growth.
