

# Elements Of Moral Science

Francis Wayland's *The Elements of Moral Science*, first published in 1837, was one of the most widely used and influential American textbooks of the nineteenth century. The book grew naturally out of the lectures Wayland prepared for the senior course in moral philosophy he taught at Andover Theological Seminary. The book was digitized by Google from the library of Harvard University and uploaded to the Internet Archive by user tpb. Page - In it thou shalt do no manner of work ; thou, and thy son, and thy daughter, thy man-servant, and thy maid-servant, thy cattle, and the stranger that is. In the following work, the author attempted to present the more important truths of moral science, in such a form as may be useful in schools and academies.
